

Climate Change in the Mid Atlantic

What can and are Land Trusts Doing?

Greg Bowen, ACLT

WE ARE THE
~~CLIMATE~~^v CHANGE

These Essential Habitats

CARBON SEQUESTRATION

Cover crops are required on all farm fields

Meadow Planting along farm fields

- 6

Be the example

SWITCH to BATTERY!

Green Infrastructure at Work

Showing the results

Note how nitrogen loads decrease as the streams approach Parkers Creek

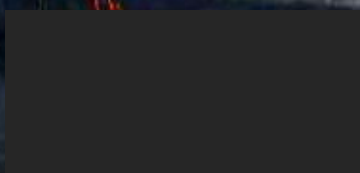

Dealing with Invasives

Wavyleaf Basket Grass

Partnering to protect large landscapes!!!!
